

JA Assure — Jade Jewellers Block & Specie Insurance

Official Product Disclosure and Underwriting Guidelines (Page 1)

JA Assure provides specialized InsurTech solutions for high-value luxury assets. Jade is JA Assure's dedicated brand delivering comprehensive Jewellers Block and Specie insurance across Southeast Asia, including Singapore, Malaysia, and Hong Kong. Standard commercial property insurance policies routinely exclude precious metals, loose gemstones, and high-value retail inventory due to inherent theft and transit hazards.

Jade Jewellers Block covers all risks of physical loss or damage to diamond collections, gold jewellery, watches, and loose stones, except as specifically excluded in the policy schedule. Coverage is strictly subject to detailed inventory appraisal and verified security criteria.

Key Coverage Pillars:

1. Retail Stock & Display Premises: Physical loss or damage to stock on retail premises during operating hours.
2. Safe & Vault Custody: Overnight protection for inventory securely locked within approved Class 1 to Class 5 safes.
3. Transit & Armoured Courier: Protection during registered transit, secure logistics, and exhibition movement.
4. Entrustment & Memorandum: Coverage while jewellery is entrusted to certified cutters, polishers, or third-party dealers.

Jade Jewellers Block — Security Warranties & Safe Criteria (Page 2)

Mandatory Safe Specifications & Warranties

Underwriting protection requires strict adherence to physical and electronic security warranties. Overnight stock storage must meet JA Assure risk engineering benchmarks:

- **Safe Classification:** Safes must possess UL TL-15, TL-30, or EN 1143-1 Grade III or higher certification. Safes weighing under 1,000 kilograms must be structurally anchored into reinforced concrete floors.
- **Dual Custody & Time Lock:** Vaults holding inventory exceeding SGD 2,000,000 must feature dual-combination locks and electronic time-lock mechanisms active outside retail business hours.
- **24/7 Monitored Central Alarm (CMS):** Direct line or dual-path 4G/IP signalling to an approved central alarm monitoring station. Line-tamper detection and seismic vibration sensors on all vault perimeters are mandatory underwriting conditions.
- **CCTV Surveillance:** High-definition closed-circuit cameras recording 30 days of continuous footage covering all entrances, display counters, and the vault perimeter.

Jade Jewellers Block — Transit, Exhibition & Memorandum (Page 3)

Armoured Logistics and Overseas Fair Extensions

High-value jewellery inventory is at peak risk during transit between ateliers, gemmological laboratories, and international luxury trade fairs (e.g. Hong Kong Jewellery & Gem Fair, Baselworld). Jade provides bespoke transit endorsements subject to the following underwriting protocols:

- **Approved Armoured Couriers:** Shipments exceeding SGD 100,000 must be conveyed via approved specialized logistics providers (e.g. Malca-Amit, Brink's, Ferrari Logistics) with armoured escort and barcode telemetry.
- **Hand-Carry Regulations:** Hand-carry by vetted full-time directors is permitted up to endorsed limits (maximum SGD 500,000) provided items remain in personal custody at all times and are never checked into aircraft baggage holds.
- **Exhibition Warranty:** At trade shows, items removed from display cases for prospective client inspection must be handled by authorized staff with continuous line-of-sight supervision.

Jade Jewellers Block — Exclusions & Claim Disclosures (Page 4)

Standard Policy Exclusions & Regulatory Disclosures

To ensure compliance with Monetary Authority of Singapore (MAS) and regional insurance standards, JA Assure explicitly outlines standard policy exclusions. No policy guarantees unconditional claims settlement.

Standard Policy Exclusions include: 1. Mysterious Disappearance: Unexplained inventory shortages discovered solely during routine annual stock audits. 2. Dishonesty of Employees: Fidelity theft unless specifically endorsed with an approved commercial crime extension. 3. Wear, Tear & Gradual Deterioration: Inherent vice, atmospheric conditions, or faulty repair work. 4. Unattended Vehicles: Loss of jewellery left inside any unattended motor vehicle is strictly excluded without exception. 5. War, Terrorism & Nuclear Contamination: Statutory exclusions applied across all standard Lloyd's and regional syndicate binders.

Important Regulatory Notice: Jade is an insurance technology advisory platform under JA Assure. All terms, coverage limits, sub-limits, and claims assessments are strictly subject to policy wording, underwriter schedules, and individual risk survey approval. Never promise 100% protection or guaranteed payouts.
